CARBON Z1

New, more resistant version of the previous Carbon X fabric. Lightweight, polyester knitted fabrics with carbon fibre mixture that helps to transfer the heat away from the body.

Verano Ultra

A technical and soft mesh fabric that provides excellent breathable and moist wicking characteristics. Thanks to its light weight you will have a feeling that you are not wearing a high performance cycling kit.

W&W Shark

4-way stretch woven fabric, polyamide based, protective fabric ideal for garments (jackets, vests, bibshorts) to be used in bad weather conditions and cold temperatures. It features a revolutionary protective concept consisting in an external windbreaker face, treated with Lot'o'dry, our patented DWR, protecting the rider against the rain and humidity, and a nano-brushed inner face which provides warmth and a soft hand touch. Beside all these characteristics, the fabric features a exceptional breathability and wicking for a great thermal comfort.

TEMPS

Extremely soft and fine, pleasing to the touch and as comfortable as a second skin. The particular way the fabric is made ensures a soft, warm "peach fuzz" finish, excellent fit and maximum freedom of movement.

An ultralight membrane gives an effective protection against the rain thanks to high values of waterproofness (> 8 000 mm) and a superior level of breathability (> 11 000 g/m/24h) will make sure that you do not overheat while riding your bike.

W&W EVENT

eVent fabrics revolutionized waterproof apparel with the introduction of an air permeable waterproof membrane. With billions of microscopic pores that are too small for moisture to penetrate from the outside, our proprietary waterproof membrane instantly vents the heat and sweat that you generate when you are cycling. It helps reduce the temperature swings your body experiences during physical exertion.

Goffrato

Innovative Italian fabrics Goffrato provides high elasticity and maximal muscle compression. These attributes guarantee free movement when racing or training.

Verano Flex

In cooperation with world-renowned Swiss textile producer Schoeller®, the shorts were made using a very light and thoroughly breathable fabric called Verano Flex.
